

TUBE -A-LUBE

Tube-A-Lube is a specialised formulation designed to enhance the efficiency and effectiveness of tube expansion processes in various industrial applications. This high-performance lubricant minimises friction, reduces wear and tear, and ensures smooth expansion of tubes, resulting in improved overall productivity and prolonged equipment life.

Key features

- **High Lubricity:** The lubricant is formulated with high-quality additives that provide exceptional lubricity, minimising friction between the expander and the tube surface.
- **Corrosion Protection:** Tube expander lubricant includes anti-corrosion agents that safeguard both the tube material and the expander, preventing damage caused by oxidation and corrosion.
- **Temperature Stability:** The lubricant is engineered to withstand a wide range of temperatures, ensuring consistent performance even in demanding operating conditions.
- **Non-Toxic and Environmentally Friendly:** This lubricant is designed to be non-toxic, environmentally friendly, and compliant with industry regulations, making it safe for both operators and the environment.

Applications

Tube expander lubricants find applications in a variety of industries where tube expansion processes are integral to operations. Some common applications include: Heat Exchangers, Boilers, Condensers, Chillers, Oil Coolers & HVAC Systems

Directions for use

Clean the tube surfaces and expander tool thoroughly before applying the lubricant.

Apply a thin, even layer of lubricant onto the tube's inner surface or the expander's contacting parts.

Perform the expansion process according to the manufacturer's guidelines.

After expansion, wipe off any excess lubricant from the tubes.

Storage: Store the tube expander lubricant in a cool, dry place away from direct sunlight and extreme temperatures. Ensure the container is tightly sealed when not in use.

Safety Precautions:

Avoid contact with eyes and skin. In case of contact, rinse with plenty of water. Keep out of reach of children and pets. Read and follow the manufacturer's safety instructions and recommendations before use.

Packaging: Tube-A-Lube is available in 1 litre or 5 litre tubs.

Disclaimer:

This specification sheet is for informational purposes only. Users are advised to refer to the manufacturer's product information, guidelines, and safety data sheets for accurate and up-to-date information before using the product. For specific technical details and recommendations, please consult the manufacturer or supplier of the tube expander lubricant.
